Subject: ROD verbiage and next steps
Importance: High

Hello Kathy,

Here is the information in the ROD that is still being reviewed but I am not expecting this language to change. Section 3.1 is wording from the ROD pertaining to the Decision and section 9 talks in-term of the required steps needed after the decision is signed and before a Mine Plan of Operation is generally approved.

3.1 Decision for the Rosemont Copper Project

However, approval to begin operations on NFS land will require changes and additions to the preliminary MPO that are necessary to meet the requirements of regulations at 36 CFR 228 Subpart A and comply with applicable laws and regulations; these changes will be incorporated into a final MPO to be submitted to the Coronado by the proponent. While this ROD documents my decision to allow the Rosemont Copper Project to be implemented, operations on NFS lands cannot begin until the final MPO is authorized.

9.1 Forest Service Requirements

The proposed operations outlined in the final MPO cannot commence on NFS lands without signed written approval from

Deliberative Process / Ex. 5

9.1.2 Financial Assurance (Reclamation Bond)

A reclamation bond is a form of financial assurance that the operator will fulfill the reclamation obligations outlined in the final MPO.

Deliberative Process / Ex. 5

9.1.3 Clean Water Act 401 Certification

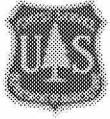

Deliberative Process / Ex. 5

Personal Matters / Ex. 6

10.0 Effective Date

Deliberative Process / Ex. 5

Section 401 certification
(FSM 2817.23a).
